

# Fiscal Year 2011 Civil Works Budget for the U.S. Army Corps of Engineers Summary

February 2010

US Army Corps of Engineers

Department of the Army  
Office, Assistant Secretary  
of the Army  
(Civil Works)

# ERRATA

Page 3 – Footnote #3 changed from \$58,000,000 to \$52,000,000.

Page 4 – Flood and Coastal Storm Damage Reduction TOTAL changed from \$1543 to \$1545; Navigation –Total changed from \$1658 to \$1653; Aquatic Ecosystem Restoration total changed from \$582 to \$586.

Page 60 –Beneficial Uses of Dredged Material (201/207/933/145) indented and changed to Beneficial Uses of Dredged Material (204/207).

Page 61 – Added (New) to Coastal Data Information Program (CDIP) and Global Change Sustainability. Deleted (New) from Response to Climate Change At Corps Projects, Fish and Wildlife Operating Fish Hatchery Reimbursement and Long-Term Option Assessment for Low-Use Navigation.

DEPARTMENT OF THE ARMY  
OFFICE OF THE ASSISTANT SECRETARY FOR CIVIL WORKS  
WASHINGTON, D.C. 20310-0108

OVERVIEW OF FISCAL YEAR 2011 CIVIL WORKS BUDGET

The President's Budget for Fiscal Year (FY) 2011 for the Civil Works program of the Army Corps of Engineers addresses the development and restoration of the Nation's water and related resources, operation and maintenance of existing Corps projects, protection of the Nation's waters and wetlands, restoration of sites contaminated as a result of the Nation's early atomic weapons development program, and training and preparedness for emergency response needs. The Budget focuses on the three main water resources missions of the Corps: commercial navigation, flood and storm damage reduction, and aquatic ecosystem restoration.

The Budget provides \$4.939 billion in gross discretionary funding for the Civil Works program, offset in part by a proposal to cancel \$52 million of prior year funding. Additional sources of funding for the FY 2011 program are estimated at \$499 million, including \$400 million in cash provided by non-Federal cost sharing partners. The Budget proposes two high priority construction new starts: the Louisiana Coastal Area ecosystem restoration program; and Onion Creek, Texas, a non-structural flood damage reduction project. The Budget includes \$10 million for a Global Change Sustainability program to assess the impacts of climate change on Civil Works projects and to identify operational and other modifications to anticipate and respond to climate change.

Construction. The Budget provides \$1.69 billion for the Construction account and gives priority to the projects with the greatest net economic and environmental returns per dollar invested, as well as those projects that address a significant risk to human safety, dam safety assurance, seepage control, and static instability correction. The Budget funds capital investments in the inland waterways for FY 2011 based on the estimated revenues to the Inland Waterways Trust Fund. It supports continued capital investments by proposing to replace the current fuel tax with a new funding mechanism that will raise the revenue needed to meet the authorized non-Federal cost-share of these capital investments in a way that is more efficient and more equitable than the fuel tax. The Budget provides \$180 million for the South Florida Ecosystem Restoration Program, which includes the Everglades. In this effort, the Budget supports continued construction of five significant restoration projects: Picayune Strand, Site One Impoundment, Indian River Lagoon South, Kissimmee River, and C-111 (South Dade).

Operation and Maintenance. The Budget provides \$2.36 billion for the Operation and Maintenance account. The Budget continues the emphasis on the performance of existing projects by focusing on the maintenance of key commercial navigation, flood and storm damage reduction, and other facilities. The Budget again gives priority to those harbors and waterway segments that support high volumes of commercial traffic. The Budget also funds harbors that support significant commercial fishing, subsistence, or public transportation benefits.

Investigations. The Budget provides \$104 million for Investigations, which funds studies to determine the need, engineering feasibility, and economic and environmental return to the Nation, of potential solutions to water and related land resource problems. This account also funds preconstruction engineering and design, data collection, interagency coordination, and research.

Flood Control, Mississippi River and Tributaries. The Budget includes \$240 million for ongoing construction, operation and maintenance, and investigations activities, with emphasis on the 1600 miles of levees and related features on the main stem of the lower Mississippi River and in the Atchafalaya Basin, which reduce the flood risks to a large region.

Flood Control and Coastal Emergencies. The Budget includes \$30 million for preparedness for floods, hurricanes, and other natural disasters.

Regulatory Program. The Budget provides \$193 million for the Regulatory Program to protect the Nation's waters and wetlands.

Expenses. The Budget provides \$185 million for the Expenses account, funding for all Army Corps of Engineers activities related to executive direction and management of the Civil Works program.

Office of the Assistant Secretary of the Army for Civil Works. The Budget provides \$6 million for the expenses of the Office of the Assistant Secretary of the Army for Civil Works for policy direction and oversight of the Civil Works program.

The FY 2011 Budget for the Army Civil Works program addresses ongoing activities and proposes two new projects. It represents a continuing, fiscally prudent investment in the nation's water resources infrastructure and in the restoration of its aquatic ecosystems. The support of these efforts in the FY 2011 Budget will enable the Corps to continue to contribute to the larger Federal, state, and local effort to manage these resources responsibly. I am proud to present this budget on behalf of President Obama.

Jo Ellen Darcy  
Assistant Secretary of the Army  
(Civil Works)

DEPARTMENT OF THE ARMY  
 CORPS OF ENGINEERS – CIVIL WORKS  
 FISCAL YEAR 2011 BUDGET

The Fiscal Year 2011 Budget provides \$4,939,000,000 for the Civil Works program of the U.S. Army Corps of Engineers. The Civil Works program supports water resources development, management, and restoration through investigations and surveys, engineering and design, construction, and operation and maintenance as authorized by Congress. Funding for the Civil Works program includes \$499,000,000 in additional new resources, including \$400,000,000 in non-Federal contributions. Based on current estimates, required FY 2011 appropriations and additional new resources are as follows:

	<u>Amount (\$)</u>	
<b>Requested Appropriations:</b>		
Investigations	104,000,000	
Construction	1,690,000,000	1/
Operation and Maintenance	2,361,000,000	2/
Regulatory Program	193,000,000	
Mississippi River and Tributaries	240,000,000	
Expenses	185,000,000	
Flood Control and Coastal Emergencies	30,000,000	
Formerly Utilized Sites Remedial Action Program	130,000,000	
Assistant Secretary of the Army, Civil Works	6,000,000	
<b>TOTAL APPROPRIATION REQUEST</b>	<b>4,939,000,000</b>	
 <b>Proposed Cancellation</b>	 (52,000,000)	3/
	<b>4,887,000,000</b>	
 <b>Sources of Appropriations:</b>		
General Fund	(4,051,310,000)	
Harbor Maintenance Trust Fund	(764,356,000)	
Inland Waterways Trust Fund	(82,334,000)	
Special Recreation User Fees	(41,000,000)	
<b>TOTAL APPROPRIATION REQUEST</b>	<b>4,939,000,000</b>	
 <b>Additional New Resources:</b>		
Rivers and Harbors Contributed Funds	400,000,000	4/
Coastal Wetlands Restoration Trust Fund	83,000,000	5/
Permanent Appropriations	16,000,000	
<b>TOTAL ADDITIONAL NEW RESOURCES</b>	<b>499,000,000</b>	
<b>TOTAL PROGRAM FUNDING</b>	<b>5,438,000,000</b>	

1/ Includes \$82,334,000 from the Inland Waterways Trust Fund.

2/ Includes \$764,356,000 from the Harbor Maintenance Trust Fund and \$41,000,000 in Special Recreation User Fees.

3/ From MR&T \$52,000,000 cancellation of unobligated balances.

4/ Cost-sharing contributions required by law for budgeted work and work financed 100 percent by non-Federal interests.

5/ Transferred from the Sport Fish Restoration Account of the Aquatic Resources Trust Fund for planning, protection, and restoration of coastal wetlands in the state of Louisiana.

## KEY TO ABBREVIATIONS

E - ENVIRONMENTAL RESTORATION  
F&CSDR - FLOOD and COASTAL STORM DAMAGE REDUCTION  
H - HYDROPOWER  
N - NAVIGATION  
REC - RECREATION  
MP - MULTI-PURPOSE

Allocation for multi-state studies, projects and programs are listed under a single state and cross-referenced to other affected states. They are not intended to depict total allocations to individual states.

## Operation and Maintenance Performance Statements Fiscal Year 2011 Civil Works Budget

The Army used six objective performance criteria to allocate operation and maintenance funds to Corps projects. These criteria consider both the condition of the project and the potential consequences for project performance if the O&M activity is not undertaken in the Fiscal Year 2011 Budget. These criteria are:

- Cost effective measures to increase or maintain asset availability
- Cost effective measures to maintain or increase asset reliability
- High economic return for the nation
- Provide an acceptable level of public safety and health
- Cost effective measures to address a significant environmental concern
- Legal requirements
