VSB Remote Upgrade/Migration Service

Let our experts remotely guide you through your Kaspersky upgrade and migration.

Invest in proper implementation:

- ✓ Master best practices
- ✓ Optimize app configurations
- ✓ Minimize future disruptions
- ✓ Enhance security posture

Benefit from the work of a Kaspersky-certified professional:

Assessment, planning and advice towards best upgrade/migration path according to environment and needs

Prerequisite check and specification assistance of the management server

Backup and restore of settings to reduce any downtime

Walkthrough upgrade for a representative subset of your environment

Proven methodologies and best practices derived from thousands of upgrades and migrations

Accelerated time to value with shortened learning curve and reduced fault-finding and remediation costs

Optimized security investment with products implemented and configured for top performance

Apply your service to products and features like these:

- Security Center
- Endpoint Security
- Endpoint Security Cloud
- Security for File Servers
- Ransomware/Crypto Protection and Rollback
