[PICTORIAL]: On March 08, 2023, The 2022 US INDO-PACIFIC COMMAND (INDOPACOM) team: **Bernard Lucero**, PE of the US Indo-Pacific Command J44 PDI-JPMO NAVFAC Pacific of the INDOPACOM, **Trace Taylor**, LEED AP, USACE Program Manager/COR of the USACE Fort Worth District, and **Mark Moszak**, AICP, Senior Project Manager/Planner of the Tutulu, LLC – Project Lead, Planning, Engineering, GIS met with Honorable Governor Lemanu P.S. Mauga, Honorable Lieutenant Governor Talauega E.V. Ale, and various members of the cabinet, to include Major Vaouli of the American Samoa Army Reserve and HTC Lauti which are liaisons of the INDOPACOM team.

The INDOPACOM team discussed the infrastructure assessment in American Samoa, a baseline study of the current situation identifying the initial stages for future programs and projects.

Survey, research, interviews, and major data collection will be conducted with the focus on American Samoa's Airports (Tafuna International Airport, Ofu Airport, and Fitiuta Airport.) and Seaports.

The conversation between INDOPACOM and the leaders of American Samoa will continue the work with technical approaches, site visits, and research based interviews.
