# ACQUISITION STRATEGIES

- Use sole source in most cases to get contractors doing specialized work for the Norfolk District.
- 13 new contractors added to in FY21.
- 7 new contractors added to in FY22
- Goal is 10 new contractors in FY23 (to date we have 3 new contractors)
  
- **Currently no pool of MATOCS to support SRM like work**
- One D-B SRM Construction Contracts put in place – Northern VA (Quantico, Ft Walker (FT A.P. Hill), Dahlgren, DSCR)
- Looking to add a stand alone for DSCR and/or minor JOC
- Possible Small Business D-B MATOC in FY24/25
  
- **Developing Construction Acquisition Plans to support Norfolk Coastal Storm Risk Management Program**
  - Phase 1A and 1B projects are anticipated to be Stand-Alone Contract Actions (DB and DBB)
  
- **IFB most used - stand alone C-Contracts – will use more BVTO for small business work at Arlington National Cemetery**
  
- **Continued use of IFB with Definitive Responsibility Criteria – DRC**
  - Bridge between IFB and BVTO – quicker, provides assurance we are awarding to capable firms
  - Contractors asked to provide evidence that they can do the work – after bid opening
    - Generally asking for specific relevant past experience; narrative that explains they understand the project and key technical challenges, etc.
    - “...the Contracting Officer will also examine whether the low bidder can meet the requirements of the solicitation by demonstrating that the prime contractor or subcontractor responsible for dredging has dredged by mechanical means or hopper a minimum of 80,000 cubic yards in a consecutive 30-day period in a cold-weather month (October through January) with disposal/placement onto a beach. This will be considered a definitive responsibility criterion”
