Investing for tomorrow, delivering today.

Use Tools in the Toolkit to Safeguard Yourself and Your Community: Treatments

1 positive test + 1 symptom + 1 risk factor = treatment

- **The earlier you get treated the better.** At home, oral treatments should be started within 5-days of symptom onset and IV treatments within a 7-day window.
- Therapeutic prescriptions are available to order to pharmacies statewide! Visit findatreatmentnm.com or talk to a medical provider for more information.

NIH Tier	Treatment
1	• Paxlovid (oral)
2	• Remdesivir (IV 3 doses)
3	• Molnupiravir (oral) • Bebtelovimab (IV)

Use Tools in the Toolkit to Safeguard Yourself and Your Community: Vaccines

- Vaccines have safeguarded millions of people from getting very sick, hospitalized, and/or dying from COVID-19.
- Everyone 5+ should get a booster dose after their primary series.
- Everyone 50+ should get a second booster.
- Up and coming: By end of month, under 6 months through 5-year-old vaccine will be available.
- Visit [VaccineNM.org](https://vaccine.nm.org) or [Vaccines.gov](https://vaccines.gov) to schedule an appointment today.

Percent of Cases, Hospitalizations, and Deaths by Vaccine Status
09 May, 2022 - 06 June, 2022

Our community is safer when we do our part.

- Know the [COVID-19 Community Level](#) where you live.
 - Follow the CDC guidance for Low, Medium and High levels.
- **Get vaccinated.**
 - Stay up-to-date on vaccines and boosters.
- **Get tested.**
 - At the first sign of symptoms.
- **Get treated.**
 - Seek treatment right away, even if you have one risk factor.
- **Get a well-fitting mask.**
 - Masks are effective and provide an extra layer to safeguard.
