For Parents and Children: Step by step vaccine process

How do I schedule my child's appointment?

- [Vaccinenm.org/kids](https://vaccinenm.org/kids)
- It's free and you don't need insurance

Where do they put the shot?

- Someone will clean your upper arm with an alcohol pad
- It will feel a little cool
- This is where you would normally get your flu vaccine or the other 16 vaccines that kids get for school

How to get ready for your shot

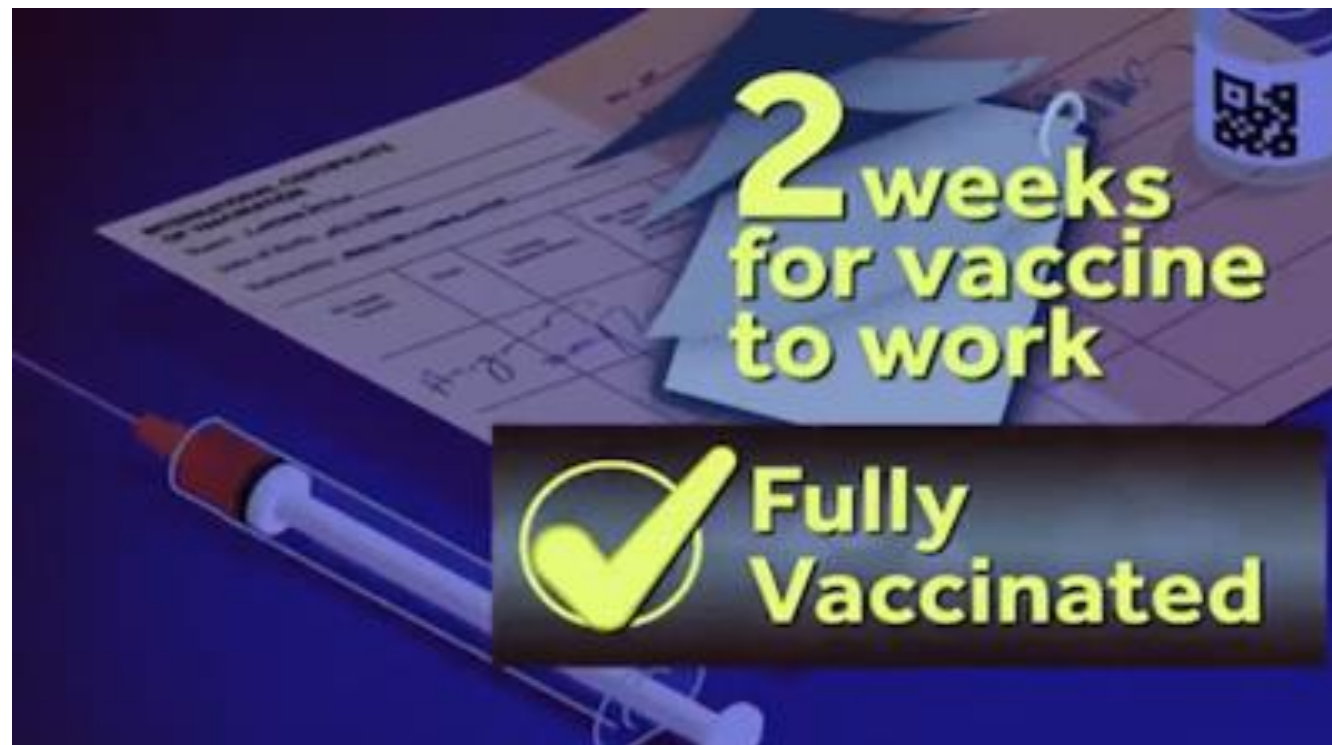

- Bring a friend, sibling, family member to talk to while getting your vaccine
- Bring a favorite stuffed animal or toy

When will my child be fully vaccinated?

3 weeks apart

Why should my child get the vaccine?

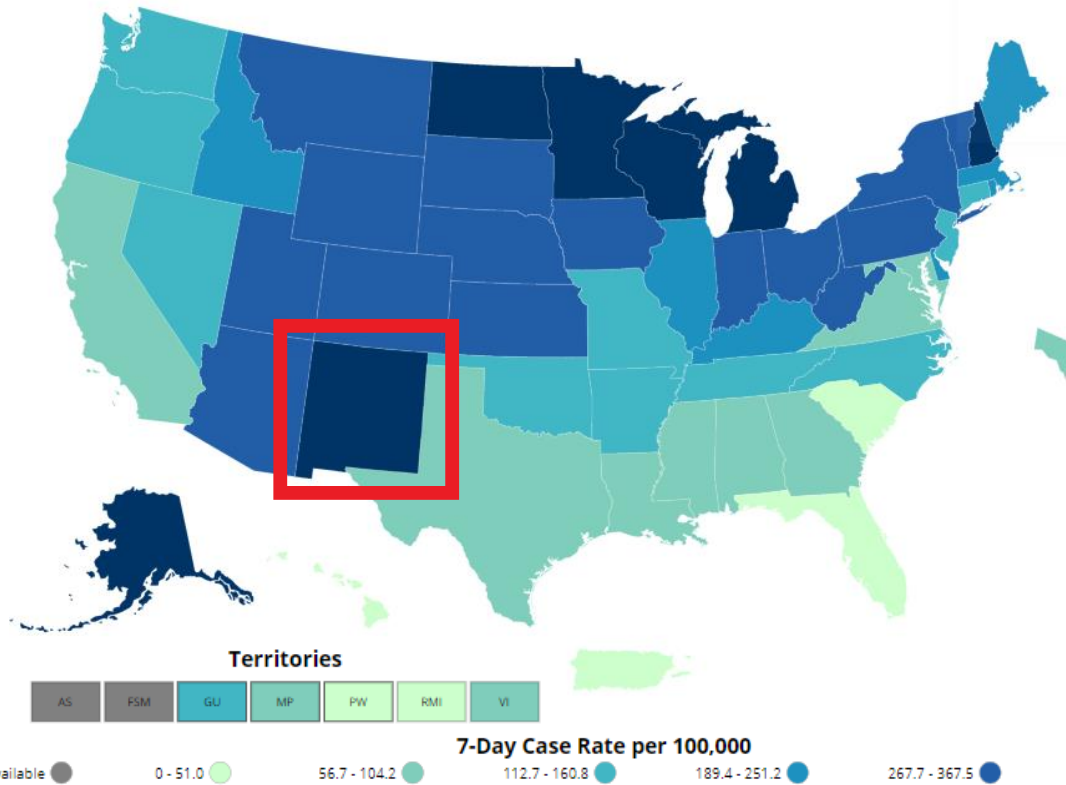

- It's 91% effective at preventing COVID
- We do this so we don't end up getting really sick or passing it on to someone else
- It's our little part to help end the pandemic

Highly contagious Delta variant remains predominant variant in current surge

*The dark grey shaded region in each of the figures on this page represents the lag period between specimen collection and genomic sequencing results such that the results may look different when all specimens available for sequencing have been reported.

The Delta variant spreads more easily than previous variants—it may cause more than 2x as many infections

New Mexico Test Positivity Rate is High

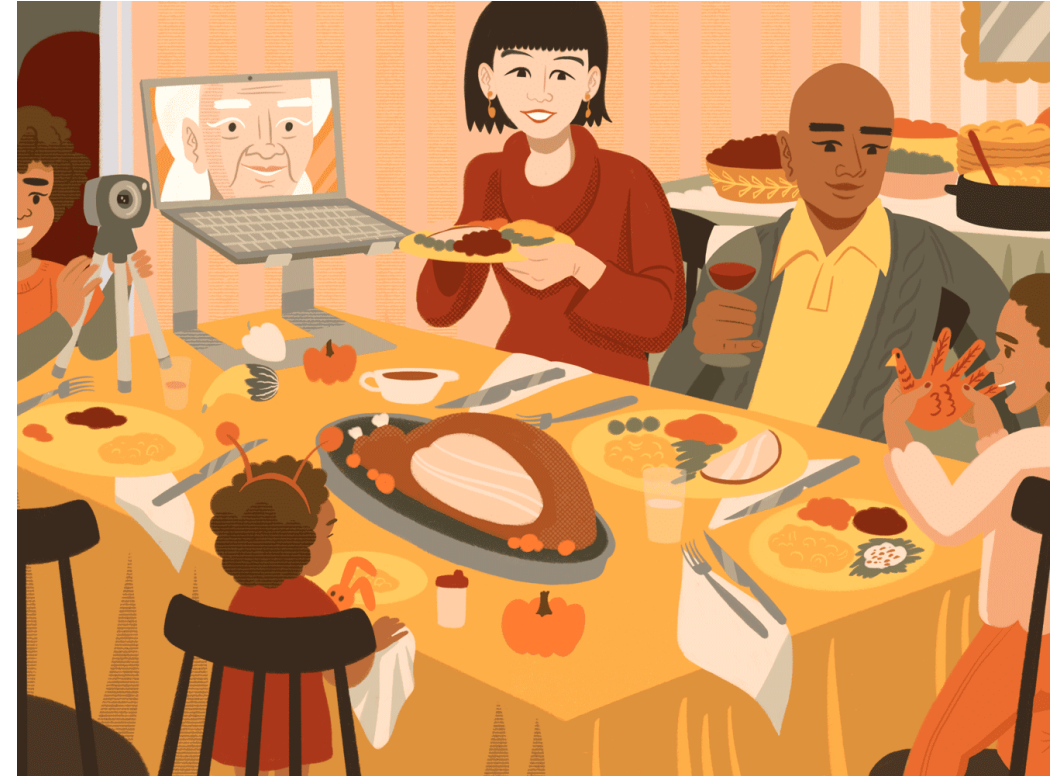

- High burden of disease in our communities
- Insufficient testing of children
- Increasing availability of OTC tests and results not reported to state (could affect the overall percent positivity)

New Mexico Test positivity 7-Day Rolling Average, March 17, 2020-November 15, 2021

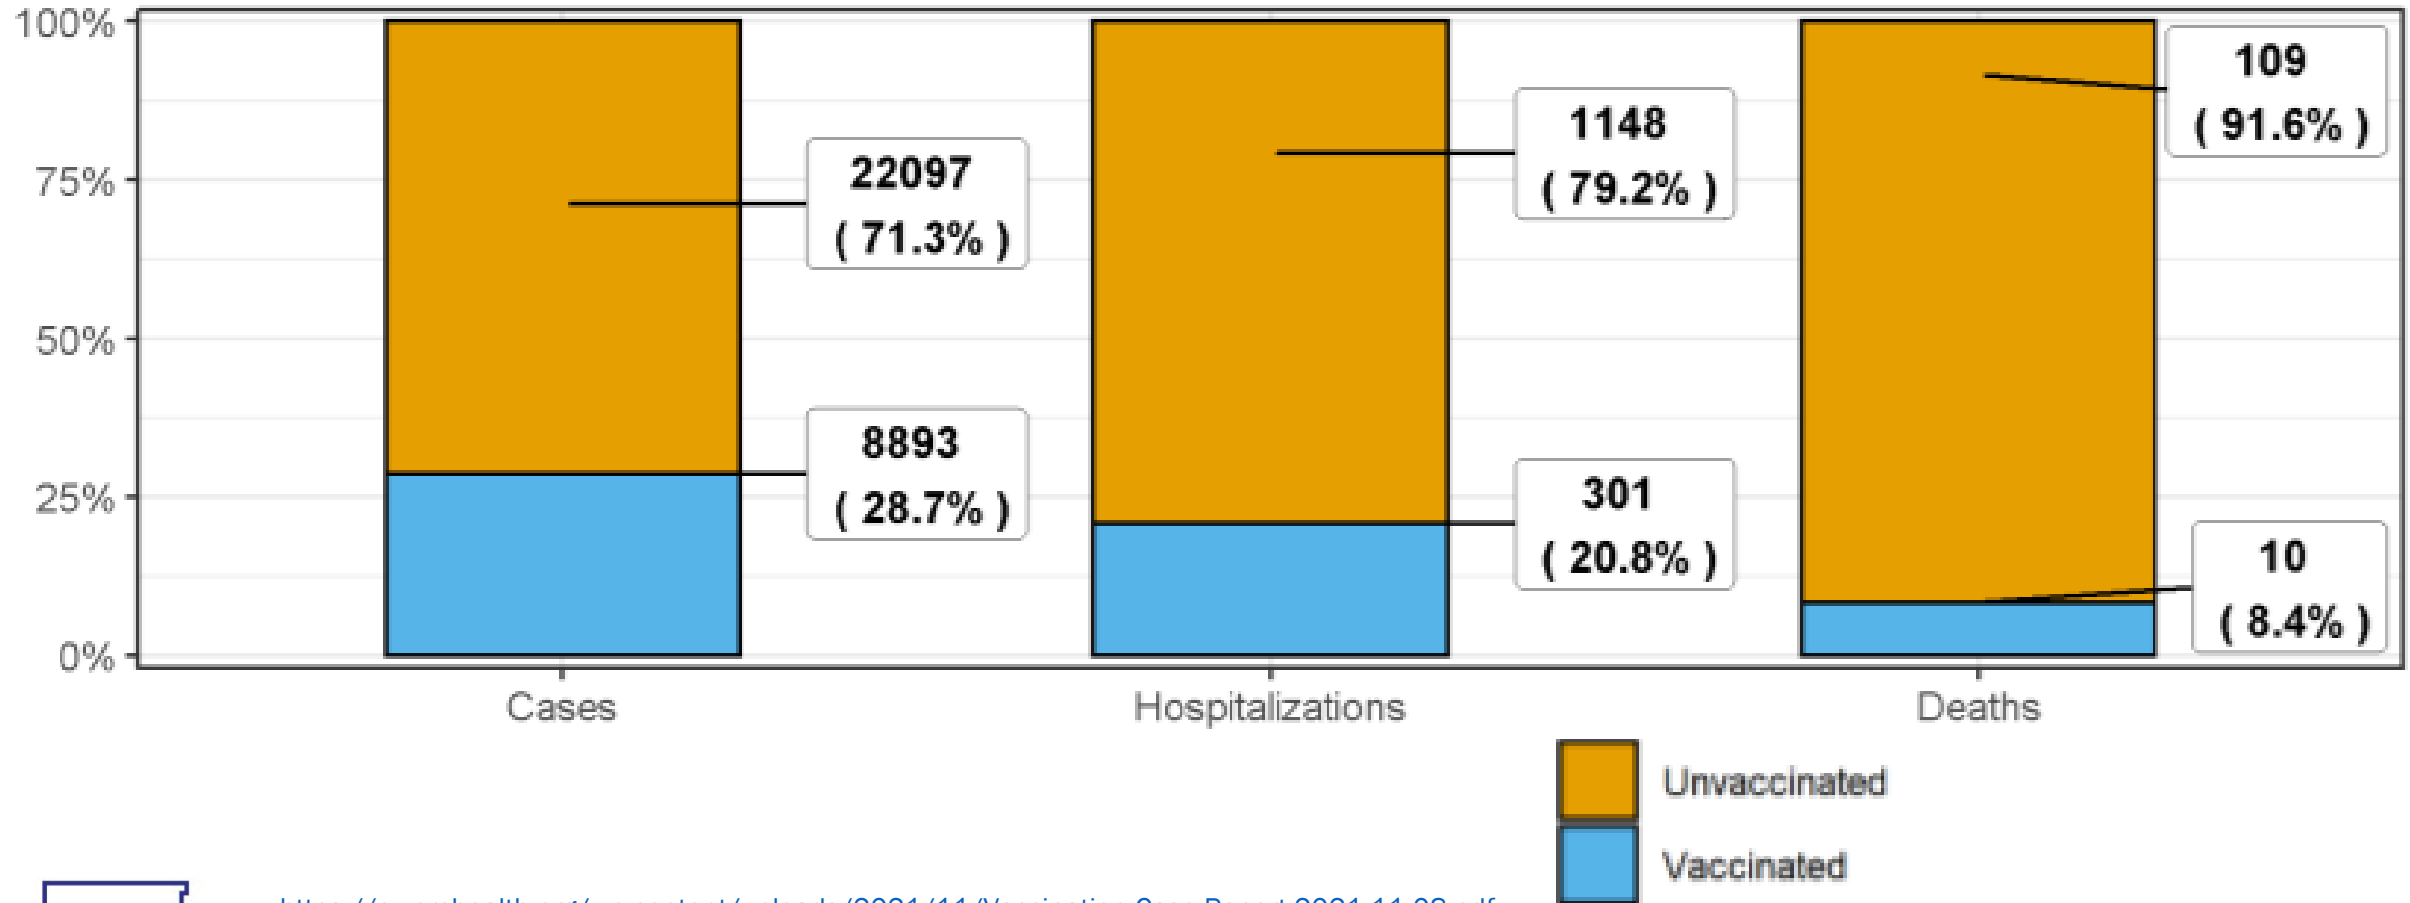

Safer ways to Celebrate Holidays

- Protect those not yet eligible for vaccination (young children) and those who may be vulnerable to severe infection by getting vaccinated
- Wear a well-fitting mask over your nose and mouth if you are in public indoor settings regardless of vaccination status
- Consider delaying travel plans if not fully vaccinated
- Avoid crowded, poorly ventilated spaces
- If you are sick or have symptoms, don't host or attend a gathering
- Get tested if you have symptoms of COVID-19 or have a close contact with someone with COVID-19

COVID-19 Treatments

950 COVID-19 mAbs treatments were given over the last week!

Remdesivir (moderately ill, given in hospital)

mAbs (symptoms + >64, obese, OR one risk factor, given as outpatient)

mAbs provider spotlights

Below are the top outpatient mAbs providers from November 11-17. “Thank you!” to these facilities and all other NM mAbs providers:

- Presbyterian Healthcare Services – 175
- Memorial Medical Center – 97
- Guadalupe County Hospital – 73
- Gerald Champion Regional Medical Center – 63
- San Juan Regional Medical Center – 63

Oral COVID-19 therapeutics

- Several oral antivirals for the outpatient treatment of mild to moderate COVID-19 are in late-stage development
- Anticipated EUAs from the FDA as early as December 2021
- Target patient population are adults at high risk of disease progression
- Initially, demand will be higher than available supply
- Will likely follow similar distribution process as mAbs (states allocate product to providers)
- HHS has indicated that all jurisdictions should be prepared to be able to use Molnupiravir by 11/30/21

Multiple layers to help prevent the spread COVID-19 – NM needs your help!

Personal responsibilities

Shared responsibilities

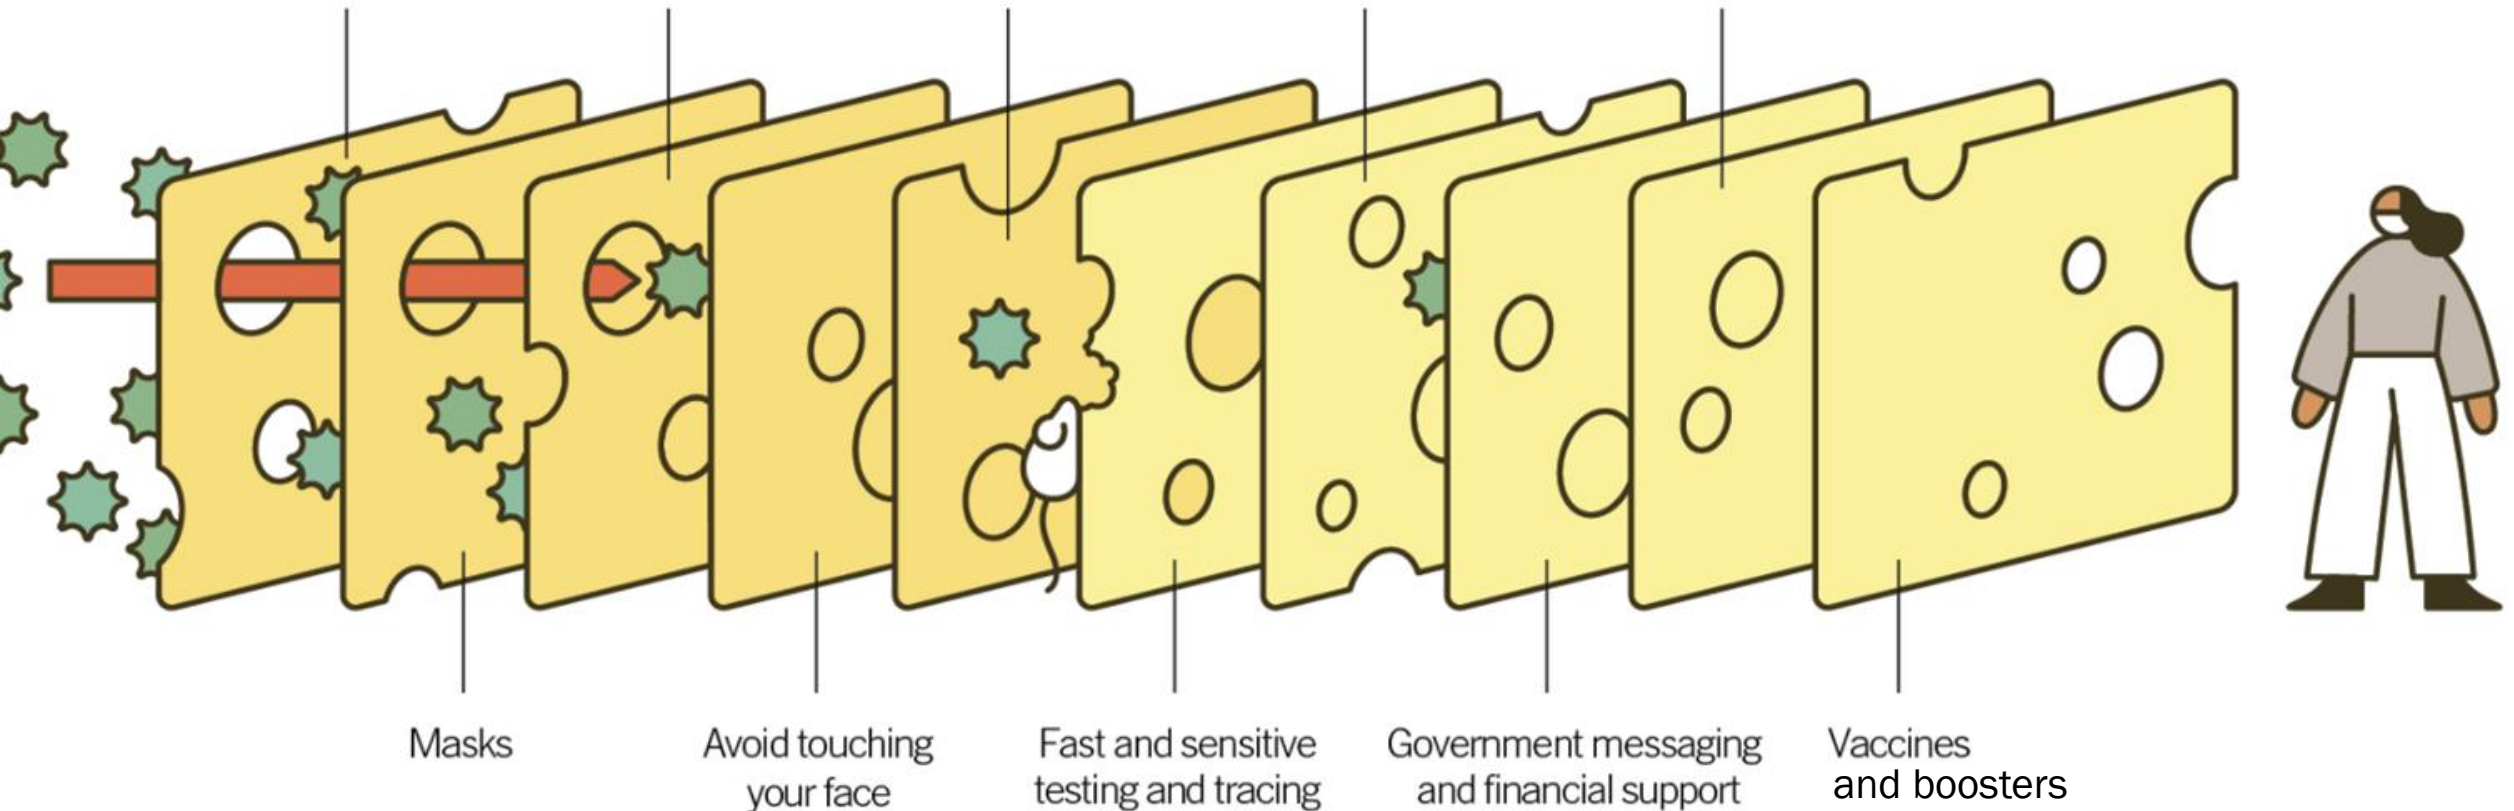

Physical distance,
stay home if sick

Hand hygiene,
cough etiquette

If crowded,
limit your time

Ventilation, outdoors,
air filtration

Quarantine
and isolation

Consult your doctor for COVID-19 treatment; beware of unproven therapies

- Approved COVID-19 outpatient treatments are limited right now to monoclonal antibodies
- Unproven therapies can be harmful and have led to deaths in NM

The pandemic is not over; New Mexicans still need to take precautions

- Get tested if you think you have COVID-19 or have been exposed to someone who is positive.
- If you have a COVID-19 positive test, symptoms and risk factors, seek out monoclonal antibody treatment.
- Be especially careful indoors no matter where you live in NM.

CASE COUNTS REMAIN TOO HIGH. WE ALL STILL MUST FIGHT THE VIRUS.

- Wash hands, clean surfaces, cough into tissue/elbow.
- Everyone mask up and maintain social distancing (minimum 6').
- Get needed preventive healthcare.
- Get vaccinated!
