

Dell for Startups

We are here to help your company grow even more with end-to-end solutions. We can help you through:

ProDeploy

Plan, configure, and deploy new hardware and software solutions in a way that minimizes disruption to business operations.

Prosupport

Premium technical support service providing 24/7 access to expert technicians for troubleshooting and issue resolution.

Dell APEX MDS

Cloud-based IT management service that allows businesses to simplify the deployment, management, and support of their IT infrastructure through a flexible as-a-service model.

OEM Solutions

Provides customized hardware and software solutions for original equipment manufacturers (OEMs) to integrate into their own product and services.
