

REQUESTING TO MODIFY A PRE-EXISTING PRIVATE FLOATING FACILITY

Modifying an existing private floating facility voids the permit granted under a previous Shoreline Management Plan (SMP). **The modified facility must meet all requirements of the current SMP including adjacent land access, design, materials, spacing and density requirements.**

“Modification” is any change to an existing private floating facility including, but not limited to:

- Moving/relocating an existing facility
- Adding to or removing walkway segments from an existing facility
- Adding slips to, removing slips from an existing facility
- Any major repairs including any work involving the frame or subframe
- Altering the design of the facility
- Adding exterior attachments such as jet ski lifts or platforms

Procedures for Requesting Authorization to Modify a Private Floating Facility

1. Review the 2013 Eufaula Lake Shoreline Management Plan for complete information on laws, regulations and restrictions for private floating facilities on Eufaula Lake. This document can be picked up in person from the Eufaula Lake Office on a CDROM or downloaded from the Tulsa District website <http://www.swt.usace.army.mil> under Shoreline Management Plans.
2. Only the current permittee may make requests. The current permittee must submit the following:
 - a. Submit a written request clearly identifying all proposed work and actions.
 - b. Submit two sets of plans certified by a licensed engineer for the facility. Plans are required for all facilities, even if the request is to relocate the facility. (SMP pg 9)
 - c. Submit proof of direct legal access to Corps property, such as a recorded deed or easement. List this tract of land on your written request. (SMP pg 10)
 - d. Submit a site map, noted aerial photo, or other document showing the proposed location of the private floating facility. The Corps will determine the final authorized location. (SMP pg 11)
 - e. If the private floating facility has more than 2 slips, submit documentation of proof of need. The documentation requirements include a vessel registration in the name of the slip owner for an appropriately sized vessel for all existing and proposed slips in the facility. (SMP pg 12)
 - f. Submit a list of names, addresses, phone numbers and email addresses of owners of each slip in the facility. (SMP pg 9)
3. Applications submitted without all of the above items cannot be reviewed and **will be returned to the submitter as incomplete.**
