**Agency Information Collection Activities: Submission for OMB Review; Comment Request**

Periodically, the Substance Abuse and Mental Health Services Administration (SAMHSA) will publish a summary of information collection requests under OMB review, in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these documents, call the SAMHSA Reports Clearance Officer on (240) 276-1243.

**Proposed Project: Substance Abuse Prevention and Treatment Block Grant Synar Report Format, FFY 2008-2010—(OMB No. 0930-0222)—Revision**

Section 1926 of the Public Health Service Act [42 U.S.C. 300x-26] stipulates that funding Substance Abuse Prevention and Treatment (SAPT) Block Grant agreements for alcohol and drug abuse programs for fiscal year 1994 and subsequent fiscal years require States to have in effect a law providing that it is unlawful for any manufacturer, retailer, or distributor of tobacco products to sell or distribute any such product to any individual under the age of 18. This section further requires that States

conduct annual, random, unannounced inspections to ensure compliance with the law; that the State submit annually a report describing the results of the inspections, describing the activities carried out by the State to enforce the required law, describing the success the State has achieved in reducing the availability of tobacco products to individuals under the age of 18, and describing the strategies to be utilized by the State for enforcing such law during the fiscal year for which the grant is sought.

Before making an award to a State under the SAPT Block Grant, the Secretary must make a determination that the State has maintained compliance with these requirements. If a determination is made that the State is not in compliance, penalties shall be applied. Penalties ranged from 10 percent of the Block Grant in applicable year 1 (FFY 1997 SAPT Block Grant Applications) to 40 percent in applicable year 4 (FFY 2000 SAPT Block Grant Applications) and subsequent years. Respondents include the 50 States, the District of Columbia, the Commonwealth of Puerto Rico, the U.S. Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, Palau, Micronesia, and the Marshall Islands.

Regulations that implement this legislation are at 45 CFR 96.130, are

approved by OMB under control number 0930-0163, and require that each State submit an annual Synar report to the Secretary describing their progress in complying with section 1926 of the PHS Act. The Synar report, due December 31 following the fiscal year for which the State is reporting, describes the results of the inspections and the activities carried out by the State to enforce the required law; the success the State has achieved in reducing the availability of tobacco products to individuals under the age of 18; and the strategies to be utilized by the State for enforcing such law during the fiscal year for which the grant is sought.

SAMHSA's Center for Substance Abuse Prevention will request OMB approval of revisions to the current report format associated with section 1926 (42 U.S.C. 300x-26). The report format is changing significantly. Any changes in either formatting or content are being made to simplify the reporting process for the States and to clarify the information as the States report it; both outcomes will facilitate consistent, credible, and efficient monitoring of Synar compliance across the States and will reduce the reporting burden by the States. All of the information required in the new report format is already being collected by the States.

**Current List of Laboratories Which Meet Minimum Standards To Engage in Urine Drug Testing for Federal Agencies**

**AGENCY:** Substance Abuse and Mental Health Services Administration, HHS.

**ACTION:** Notice.

**SUMMARY:** The Department of Health and Human Services (HHS) notifies Federal agencies of the laboratories currently certified to meet the standards of Subpart C of the Mandatory Guidelines

for Federal Workplace Drug Testing Programs (Mandatory Guidelines). The Mandatory Guidelines were first published in the **Federal Register** on April 11, 1988 (53 FR 11970), and subsequently revised in the **Federal Register** on June 9, 1994 (59 FR 29908), on September 30, 1997 (62 FR 51118), and on April 13, 2004 (69 FR 19644).

A notice listing all currently certified laboratories is published in the **Federal Register** during the first week of each month. If any laboratory's certification is suspended or revoked, the laboratory will be omitted from subsequent lists until such time as it is restored to full certification under the Mandatory Guidelines.

If any laboratory has withdrawn from the HHS National Laboratory Certification Program (NLCP) during the past month, it will be listed at the end, and will be omitted from the monthly listing thereafter.

This notice is also available on the Internet at <http://www.workplace.samhsa.gov> and <http://www.drugfreeworkplace.gov>.

**FOR FURTHER INFORMATION CONTACT:** Mrs. Giselle Hersh or Dr. Walter Vogl, Division of Workplace Programs, SAMHSA/CSAP, Room 2-1035, 1 Choke Cherry Road, Rockville, Maryland 20857; 240-276-2600 (voice), 240-276-2610 (fax).

**SUPPLEMENTARY INFORMATION:** The Mandatory Guidelines were developed in accordance with Executive Order 12564 and section 503 of Pub. L. 100-71. Subpart C of the Mandatory Guidelines, "Certification of Laboratories Engaged in Urine Drug Testing for Federal Agencies," sets strict standards that laboratories must meet in order to conduct drug and specimen validity tests on urine specimens for Federal agencies. To become certified, an applicant laboratory must undergo three rounds of performance testing plus an on-site inspection. To maintain that certification, a laboratory must participate in a quarterly performance testing program plus undergo periodic, on-site inspections.

Laboratories which claim to be in the applicant stage of certification are not to be considered as meeting the minimum requirements described in the HHS Mandatory Guidelines. A laboratory must have its letter of certification from HHS/SAMHSA (formerly: HHS/NIDA) which attests that it has met minimum standards.

In accordance with Subpart C of the Mandatory Guidelines dated April 13, 2004 (69 FR 19644), the following laboratories meet the minimum standards to conduct drug and specimen validity tests on urine specimens:

\*The Standards Council of Canada (SCC) voted to end its Laboratory Accreditation Program for Substance Abuse (LAPSA) effective May 12, 1998. Laboratories certified through that program were accredited to conduct forensic urine drug testing as required by U.S. Department of Transportation (DOT) regulations. As of that date, the certification of those accredited Canadian laboratories will continue under DOT authority. The responsibility for conducting quarterly performance testing plus periodic on-site inspections of those LAPSA-accredited laboratories was transferred to the U.S. HHS, with the HHS' NLCP contractor continuing to have an active role in the performance testing and laboratory inspection processes. Other Canadian laboratories wishing to be considered for the NLCP may apply directly to the NLCP contractor just as U.S. laboratories do.

Upon finding a Canadian laboratory to be qualified, HHS will recommend that

DOT certify the laboratory (**Federal Register**, July 16, 1996) as meeting the minimum standards of the Mandatory Guidelines published in the **Federal Register** on April 13, 2004 (69 FR 19644). After receiving DOT certification, the laboratory will be included in the monthly list of HHS-certified laboratories and participate in the NLCP certification maintenance program.

## DEPARTMENT OF THE INTERIOR

### Fish and Wildlife Service

#### Establishment of Rocky Flats National Wildlife Refuge, Colorado

**AGENCY:** Fish and Wildlife Service, Interior.

**ACTION:** Establishment of Rocky Flats National Wildlife Refuge.

**SUMMARY:** In accordance with the provisions of the Rocky Flats National Wildlife Refuge Act of 2001 (Pub. L. 107-107, 115 Stat. 1012, 1380-1387) hereinafter referred to as the "Refuge Act," the Secretary of Energy has transferred primary administrative jurisdiction over approximately 3,953.03 acres of real property at the former Rocky Flats Environmental Technology Site (RFETS), Jefferson and Boulder Counties, Colorado, to the Secretary of the Interior.

Pursuant to section 3177(d) of the "Refuge Act," the Secretary of the Interior hereby provides notice of the establishment of the Rocky Flats National Wildlife Refuge (Refuge).

The "Refuge Act" provides that following environmental remediation of RFETS, under the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, and other applicable provisions of law, the Secretary of Energy shall transfer administrative jurisdiction over real property comprising the Refuge to the Secretary of the Interior for establishment of the Rocky Flats National Wildlife Refuge.

Environmental remediation of the Rocky Flats National Priorities List Site has been completed, except for on-going operations and maintenance, pursuant to a Record of Decision signed by the Department of Energy, Environmental Protection Agency (EPA) and the State of Colorado in 2006. On May 25, 2007, the Regional Administrator of the EPA published notice in the **Federal Register** announcing deletion of the Peripheral Operable Unit and Operable Unit 3. On June 11, 2007, the Administrator of the EPA, acting through the Regional Administrator, Region 8, EPA, certified to the Secretary of Energy and the Secretary of the Interior that all response actions for the deleted areas have been completed, except for the operation and maintenance associated with response acting and that all response actions are operating properly and successfully.

Pursuant to the "Refuge Act," administrative jurisdictions over portions of the deleted Peripheral Operable Unit, totaling approximately
