An Overview of Data Reporting Templates for Certified Community Behavioral Health Clinic Quality Measures

Shweta Palakkode, MPH Substance Abuse and Mental Health Services Administration U.S. Department of Health and Human Services

March 14th, 2024

Intended Audience

Agenda

Purpose of the Reporting Template

Structure of the Reporting Template

Additional Information Sources

Intended Audience for this Webinar

- 1. Existing and prospective CCBHC Section 223 Demonstration state and clinic staff
- 2. CCBHC-Expansion (CCBHC-PDI and CCBHC-IA) grant clinics and SAMHSA GPOs

Purpose of the Reporting Template

Purpose of Reporting Template

- Updated in 2024 to reflect quality measure updates
- The updated 2024 version of the CCBHC quality measures reporting template is used for states and clinics to report CCBHC quality measures data to SAMHSA.
- Users should use the template to report quality measures data starting with measurement year 2025, which starts on January 1, 2025.

Who: For the Section 223 Demonstration Program, CCBHCs report cliniccollected measures, using the reporting template, to their state. States, in turn, report all required measures to SAMHSA, which include the required state-collected measures and the clinic-collected measures.

Timing: For example: for MY 2025, clinics will report the templates with cliniccollected measures data to the state (per direction from the state) by September 30, 2026, and the state will report both the clinic-collected and the state-collected measures, to SAMHSA no later than December 31, 2026.

Method of submission: States will submit the reporting templates to SAMHSA via the <u>CCBHCMeasuresSubmission@samhsa.hhs.gov</u> mailbox. States will use separate templates for each clinic's quality measure results, including clinic-collected and state-collected measures for that clinic.

Note: MY=Measurement Year

Use for SAMHSA CCBHC-IA and CCBHC-PDI Grantees

Who: SAMHSA CCBHC-IA and CCBHC-PDI grantees report only required clinic-collected measures, using the template, to SAMHSA.

Timing: For example: for MY 2025, CCBHC-IAs and CCBHC-PDIs will report templates to SAMHSA no later than December 31, 2026. If the CCBHC is also part of the Section 223 Demonstration, the CCBHC should also adhere to the reporting requirements noted on the prior slide.

Method of submission: For grant reporting purposes, CCBHC-IAs and CCBHC-PDIs submit the reporting template via a mechanism currently being developed, which will be shared with clinics by the end of 2024.

| | 4 | A | | | | | |
|---|--|--|--|--|--|--|--|
| 2 | 2 | Quality Measures Data Reporting Instructions | | | | | |
| | | These templates are intended for states and Behavioral Health Clinic (BHCs) to report the set of Behavioral Health Clinic (BHC) quality | | | | | |
| | | measures that were updated in 2023. Users are referred to the 2023 Technical Specifications Resource Manual for additional | | | | | |
| 3 | | instructions regarding each measure as well as general instructions for the BHC measure set as a whole. | | | | | |
| | | A. For the Section 223 Demonstration Program for Certified Community Behavioral Health Clinics (CCBHCs), clinics report using this | | | | | |
| | | template to their state. States, in turn, report all required measures to the Substance Use and Mental Health Services Administration | | | | | |
| | | (SAMHSA), including the required measures that are reported by the clinics to the states as part of the CCBHC Demonstration Program. | | | | | |
| 4 | 4 | | | | | | |
| | | B. CCBHC-PDI and CCBHC-IA expansion clinics that are not part of the Section 223 Demonstration must report all required measures to | | | | | |
| 5 | 5 | SAMHSA rather than to their state. | | | | | |
| | | These measures are specified (i.e., designed) to be reported at the clinic level. Some of the measures are drawn from established | | | | | |
| | | neasures and others are not; those derived from existing measures have been respecified to the clinic level unless they were already | | | | | |
| 6 | _ | specified at the provider level. | | | | | |
| 7 | | Organization: | | | | | |
| | | The templates are divided into 4 sections: 1) Clinic-Collected Measures Required for the CCBHC Demonstration; 2) Clinic-Collected | | | | | |
| | Measures Optional for the CCBHC Demonstration; 3) State-Collected Measures Required for the CCBHC Demonstration; and 4) State- | | | | | | |
| | | Collected Measures Optional for the CCBHC Demonstration, followed by a roll-up sheet that automatically populates with the stratified | | | | | |
| 8 | B | measure results. | | | | | |
| | | Each measure has a separate worksheet. Data or other information may only be entered in the gray cells within the reporting template. | | | | | |
| | | Responses in the the gray cells may be open text or may requre a specific format. Clicking on the gray cells will reveal instructions and, | | | | | |
| | _ | where applicable, drop down menus will populate. Alterations to cells that are not gray is not allowed. | | | | | |
| 1 | - | | | | | | |
| | | Although states may not be accustomed to reporting data for measures with small denominators, for the CCBHC Demonstration Program, | | | | | |
| | | data for all required measures must be reported. Measures with denominators less than 30 should be reported but should not be used | | | | | |
| | | for Quality Bonus Payments by states, nor should such results be publicly reported. Results of quality measures with denominators less | | | | | |
| | | than 30 will be considered in the national evaluation only after aggregatation to the state level by the evaluator, provided the | | | | | |
| | | denominator for the state is not less than 30. Measures with small denominators still may provide useful information for internal use by | | | | | |
| | | CCBHCs and states for internal quality improvement. Similarly, CCBHC-IAs or CCBHC-PDIs that are not part of the CCBHC Demonstration | | | | | |
| | | Program in their state should report data for required measures regardless of denominator size but results will not be publicly reported. | | | | | |
| 1 | 1 | | | | | | |
| | | When administrative claims or encounter data are used for reporting, those data should be complete and final at the submission | | | | | |
| | - | deadline. | | | | | |

Other Components within CCBHC Reporting Template

Template Components: A-C

Measure Title

Measure Source

- A. Measurement Year: Enter in grey cell
- B. Data Source: In this example, the expected source is medical records. Use drop down (shown) to select. If other, specify in row below. If medical records, use drop down in column D to select type (e.g., EHR).
- C. Date Range for Measurement Period: Enter start and end dates for data used for denominator and numerator in correct row.

Note: Data validation constraints will limit what can be entered.

Certain NullFlavor codes are owned and copyrighted by Health Level Seven International (HL7); [2024].

The American Hospital Association holds a copyright to the Uniform Billing Codes ("UB") contained in the measure specifications. The UB Codes in the HEDIS specifications are included with the permission of the AHA. All uses of the UB Codes may require a license from the AHA. Specifically, anyone desiring to use the UB Codes in a commercial product to generate HEDIS results, or for any other commercial use, must obtain a commercial use license directly from the AHA. To inquire about licensing, contact <u>ub04@aha.org</u>.

Health Care Provider Taxonomy Code Set codes copyright [2024] AMA. The codes are published in cooperation with the National Uniform Claim Committee (NUCC) by the AMAS. Applicable FARS/DFARS restrictions apply.

The below Measure Certification Disclaimer must be displayed once on each (i) web page and (ii) in each printed Model document or related publication that displays results/rates from the Licensed Measure Specifications.

NCQA Measure Certification Disclaimer

Unadjusted Uncertified Measures: A calculated measure result (a "rate") from a HEDIS measure that has not been certified via NCQA's Measure Certification Program and is based on unadjusted HEDIS specifications may not be called a "Health Plan HEDIS rate" until it is audited and designated reportable by an NCQA-Certified HEDIS Compliance Auditor. Until such time, such measure rates shall be designated or referred to as "Uncertified, Unaudited Health Plan HEDIS Rates."

Adjusted Uncertified Measures: A calculated measure result (a "rate") from a HEDIS measure that has not been certified via NCQA's Measure Certification Program, and is based on adjusted HEDIS specifications, may not be called an "Adjusted HEDIS rate" until it is audited and designated reportable by an NCQA-Certified HEDIS Compliance Auditor. Until such time, such measure rates shall be designated or referred to as "Adjusted, Uncertified, Unaudited HEDIS Rates."

Thank You

SAMHSA's mission is to lead public health and service delivery efforts that promote mental health, prevent substance misuse, and provide treatments and supports to foster recovery while ensuring equitable access and better outcomes.
